Hello! Welcome to a glimpse of Miller's Outdoor Living and the fine pieces we offer. Whether you need a Storage Barn, Cottage Barn or Garden Shed, we've got you covered—literally. So sit back and browse through our full color catalog with all the information you need to choose the perfect barn for you! Everyday Miller's Outdoor Living strives to fulfill the barn needs of you and your family.

Bill Miller

Our Story

The Miller family moved to Meadville, Pennsylvania in 1990 starting a dairy farm, also growing and selling vegetables in a little roadside stand. As time went on, and the boys grew up, the business expanded and started branching out.

In 2001, we started creating furniture. We believe the Lord has blessed us as we continued to grow and expand until what today now is Millers Outdoor Living. We offer Outdoor Living products at two locations one in Meadville and one in Conneaut Lake Pa.

At Millers Outdoor Living, our desire is to offer exceptional quality outdoor living products that we are confident will continue to serve our customers for many years.

Choosing a Shed 101

A lot of thought should be given when considering the investment of a storage building.

This a long term investment that should serve you for many years as well as improve the value of your property. So take your time, put on a pot of coffee and discover your unique needs and the many options available. Dream of a building that meets those needs and the style to match your decor.

Our goal for this catalog is to simplify and guide you through the many styles and options we offer. A catalog that is loaded with all the information that you may need as you search for your specific building.

START BY ASKING THESE QUESTIONS:

1. What is my budget?

Will we need financing? Is the FlexLease option for us?

2. What will I be storing?

Garden Tools, Lawn Equipment, Vehicles, Workshop Tools, Studio, Extra Storage. The possibilities are endless.

3. What type of siding?

Smartside or Vinyl

4. Painted, Vinyl, or Urethane?

Painted Smartside siding resists moisture fungal decay and termites. Vinyl is maintenance free. Urethane has a stained appearance that is mildew-resistant, easy to clean, and guaranteed not to fade.

5. Where will I put it?

The backyard, underneath the trees, close to the garden?

6. Is my site accessible for a prebuilt?

We can now drive your building right up to the building site with our mule. It has the ability to carry your prebuilt structure and set it down where ever you want it.

7. How will I prepare my site?

(see site preparation on page 11)

A barn can improve the value of your property.

Solutions for every home.

LP'S SMARTGUARD® PROCESS

We build with LP Products, a leader in the building industry.

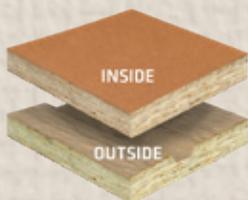

LP's proprietary SmartGuard® manufacturing process is designed to create highly durable engineered wood products. Every strand of wood that goes into LP SmartSide Trim & Siding is treated with an advanced formula of

adhesive resins, water-resistant waxes and zinc borate, after which a water-resistant, resin-saturated overlay is bonded to the product. The result: four components of protection against water damage, termites and fungal decay.

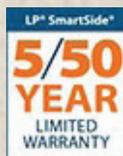

LP SMARTSIDE PANEL WITH SMARTFINISH

We know you want the inside of your building to look just as nice as the outside. That's why we use LP SmartSide® Panels with SmartFinish®, a durable overlay that gives the inside of our shed walls a premium appearance.

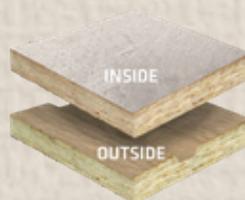

- Durable overlay for a beautiful, clean appearance
- Premium appearance enhances the quality of our buildings.
- SmartGuard® treatment for protection against rot and termites

Backed by a 5/50-year limited materials warranty so you can build with security and confidence.

LP SMARTSIDE PANEL WITH SILVERTECH

Innovative LP® SmartSide® Panels with SilverTech® feature a finish-grade radiant barrier that resists flaking and peeling. These panels also help reduce the sun's radiant energy through the panels which helps keep stored items cooler.

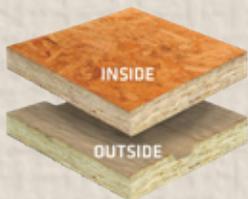

- Highly reflective surface helps brighten the interior
- Helps keep the shed cooler for storing items or working inside
- SmartGuard® treatment for protection against rot and termites

Backed by a 5/50-year limited materials warranty so you can build with security and confidence.

LP SMARTSIDE PANEL

LP SmartSide® Panels offer the durability and beauty you would expect from LP with a traditional interior finish. It's a smart choice when you want a shed product that comes backed with an outstanding warranty.

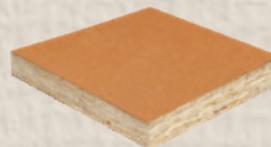

- Proven durability to resist harsh weather
- Rich cedar grain texture for enhanced beauty
- SmartGuard® treatment for protection against rot and termites

Backed by a 5/50-year limited materials warranty so you can build with security and confidence.

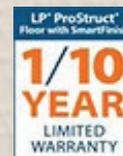

LP PROSTRUCT® FLOOR WITH SMARTFINISH

Unlike plywood shed floors, LP ProStruct Floors with SmartFinish incorporates LP's Treated Wood Strand Technology with SmartGuard® to resist fungal decay and termite damage. It also resists warping, splitting and cracking. And with no knots or voids, it's a welcome change to traditional plywood flooring.

- Beautiful, durable overlay for a premium appearance
- Treated Wood Strand Technology for enhanced durability
- SmartGuard to resist fungal decay and termite damage

Backed by a 1/10-year limited materials warranty so you can buy with security and confidence.

Solutions for every home.

Signature
Barn Style

The Barn Style has a traditional look perfectly suited to home yard storage. It is a sturdy barn with a spacious loft area for additional storage. Features large overhangs and comes in a wide variety of colors.

FINANCING OPTIONS

0% FOR 12 MONTH FINANCING

12 Month Same As Cash Program.

Lowest total cost of ownership.

Must be paid in full within 12 Months.

FlexLease

Why rent self-storage when you can lease and then own?

Your credit will not be impacted (better still, you don't even need credit – it's not required for FlexLease!)

Approval is instant, as well as guaranteed, if you meet the basic criteria.

Your most flexible path to ownership.

Options for early buyout, cancellation or upgrade in addition to ownership.

Pay over time for the things you need.

First scheduled payment will not be due until 30 days from delivery.

Numerous easy ways to pay – online, by phone, by mail, auto draft, or calling customer support.

FlexLease is not a loan and this program is not a credit card.

Term Loan Financing

As low as Zero \$ down!

Great alternative to off-site self-storage!

Near instant approval status online or in-person.

Lower total cost of ownership.

Your repayment features a fixed number of payments at a fixed APR.

Pay Over Time. See your activity and make easy payments on the member site.

First scheduled payment will not be due until 30 days from delivery.

Numerous easy ways to pay – online, by phone, by mail, auto draft, or calling customer support.

Site Preparations

Finished Limestone Building Site

Leveling the Limestone Building Site

Leveling concrete blocks

We believe that a site for your quality storage barn is worthy of much consideration and planning. The best barn available may not be satisfactory if it is placed on unlevelled or unstable ground. A proper level site will insure the structural integrity and enhance the appearance of your barn.

Option #1 Level the ground with #57 limestone. Keeping the limestone pad higher than the surrounding ground. Finished sites need to be at least 1' wider and 1' longer than the actual building size. We recommend using landscape fabric between the sod and the limestone. Site preparation procedures vary depending on how level your yard is. Contact us and we would be glad to discuss the site preparation details with you.

Option #2 is to use concrete blocks or railroad ties. Dig into ground leveling blocks and placing them no further apart than 4 feet. Level sites are a must!

Need help with your site? Site preparation is available! Contact a Miller's sales rep to discuss options.

Request an adjustable ramp!

Our adjustable ramp is four light weight pieces that are easy to remove and store away. Raise for low clearance equipment or lower to close doors!
